

Job Title:	Sustainability and Net Zero Carbon Manager
Reports to:	Group Services and Quality Director
Line Manager to: (give job titles and numbers only)	N/A
Hours & Location:	37.5 hours per week/ Hybrid Role

<p>Job Description:</p> <p>gbpartnerships group (gbp) work with NHS and public sector organisations to unlock complex estate challenges, planning, developing, and maintaining the highest quality, sustainable health and public buildings that serve the needs of communities, now and in the future. With a proven track record and over 20 years' experience in property development, asset management, and consultancy, we know how to make change happen and enable our clients to transform their services and spaces, while adding value to the communities around them.</p> <p>We recognise that as a company our actions impact our employees, our customers and suppliers, the communities in which we live and work, and the environment. We optimise our clients' property strategies by aligning it to their business and statutory goals. A core element of that strategy includes achievement of Net Zero Carbon for many of our clients.</p> <p>gbp's corporate social responsibility and sustainability team work remotely on projects across the UK. This includes working with the NHS to achieve their two clear targets are outlined in the 'Delivering a 'Net Zero' National Health Service' report:</p> <ul style="list-style-type: none"> • The NHS Carbon Footprint: for the emissions we control directly, net zero by 2040 • The NHS Carbon Footprint Plus: for the emissions we can influence, net zero by 2045. <p>We are now looking to recruit an enthusiastic Sustainability and Net Zero Carbon Manager who will work with our team to develop and deliver our sustainability services, including advising internal and external clients on strategies, targets and solutions associated with net zero delivery in relation to NHS Green Plans, and throughout the development and management of assets. A key focus of this role will include working with the gbp team to review and implement the carbon measurement and reduction plan for the gbp group of companies ahead of the NHS target dates.</p> <p>The right person will have a passion for, and experience in sustainability. We have a flexible working approach. The role may include travel to sites throughout the UK.</p>

Knowledge, Skills, Experience and Qualifications Required:	
<p>Essential Technical:</p> <p>The range of experience we are looking for is diverse. We have outlined beneficial experience below – though we wouldn't expect all of these to be addressed:</p> <ul style="list-style-type: none"> • Experience of working with the NHS or as a minimum with the public sector • Strong knowledge of sustainability issues, particularly in relation to climate science and 	<p>Desirable Technical:</p> <ul style="list-style-type: none"> • Degree/Masters in an Engineering, Energy, or related field. • Qualified BREEAM Assessor / Passivhaus Assessor enabling deployment on our developments

<p>net zero principles</p> <ul style="list-style-type: none"> • Knowledgeable regarding UKGBC, CIBSE, LETI. • Knowledgeable regarding funding routes, for example Salix. • Knowledgeable on design stage, construction, and operational lifecycle stages. • Experience in evaluating and reporting carbon data and outcomes. • Understanding of net-zero pathways and advisory experience in developing reduction strategies and target setting • Demonstrable experience of advising clients on strategies, targets and solutions associated with net zero delivery • Low Carbon Energy Assessor accreditation would be beneficial. • Competent in Microsoft Office and Windows applications. <p>Providing technical sustainability support to clients in a wide range of areas including:</p> <ul style="list-style-type: none"> • Sustainability strategies • Renewable feasibility studies • Building performance • Whole life carbon assessments • Climate adaptation / mitigation strategies <p>Personal skills: Ability to be flexible and to be able to multi-task and prioritise when necessary.</p> <ul style="list-style-type: none"> • Good interpersonal, verbal and written communication skills. • Ability to initiate, build and maintain strong business relationships with internal and external clients. • Be part of a team and maintain/develop the business. <p>Approach:</p> <ul style="list-style-type: none"> • The context of this work is changing so candidate should be confident in undertaking independent research into sustainability, energy and Net Zero related topics. • High level of energy with lots of drive and enthusiasm and a can-do attitude. 	<p>desirable but not essential.</p> <p>Providing technical sustainability support to clients in a wide range of areas including:</p> <ul style="list-style-type: none"> • Measurement and Verification (M&V) (design and application of M&V Plans in accordance with International Performance Measurement and Verification Protocol (IPMVP) or other recognised standard would be beneficial).
