

Case Study

Green Plan Expertise for Buckinghamshire, Oxfordshire and Berkshire West (BOB) ICS

Client: Buckinghamshire, Oxfordshire and Berkshire West (BOB) ICS
Project status: Completed
Timescales: Initial 6 month commission, early 2022
Services provided: Specialist expertise to produce the inaugural Green Plan and then to support the delivery

gbpartnerships worked with colleagues across the system, representing the 9 different areas of focus for the Plan (Medicines, Procurement and Supply Chain, Digital Transformation, Workforce and System Leadership, Travel and Transport, Adaptation, Sustainable Models of Care, Estates and Facilities and Food and Nutrition) and ensured a balanced approach for all system partners within the Plan.

The Plan was written by gbpartnerships and then developed with colleagues across the system to ensure it reflected the ICS ambitions and to enable ownership.

We are now working with colleagues to carry out baselining of existing groups, understand the gaps and opportunities and then develop an aligned framework for delivering on the Plan.

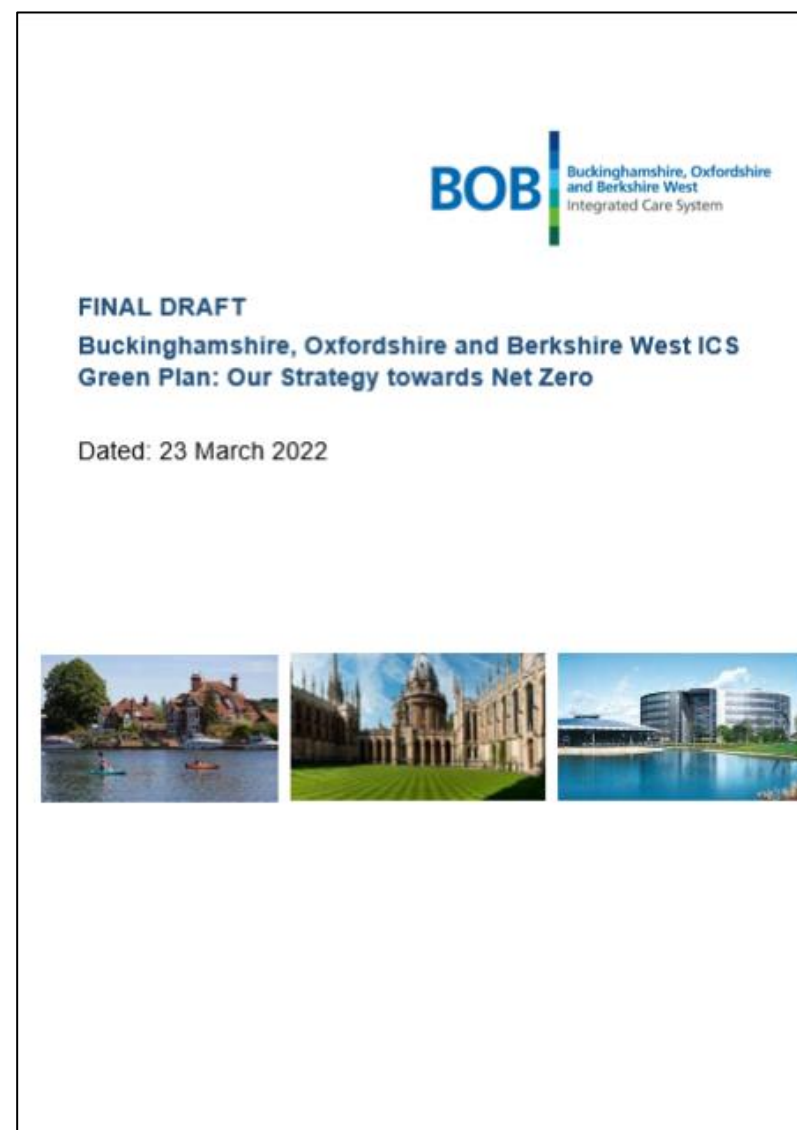

Our Role:

- gbpartnerships researched, wrote and delivered the inaugural Green Plan, ensuring full consultation across the system.
- Established a governance framework to enable delivery and undertaking system-wide discussions to ensure delivery.

Impact:

- gbpartnerships developed a very strong and clear inaugural Green Plan, that's representative of the system, at all elements. It has brought people together to share ideas and to discuss working together from an organisational, place and system perspective.

"Becky and the gbpartnerships team have been an integral part of our project team throughout the process to the delivery of the system plan. She has been a valuable source of expertise and experience in the arena of sustainability.

Her knowledge and attention to detail have aided our project team to stay on track and to set up the governance structure for the next phase of a longer term sustainability programme for our ICS.

I feel confident in recommending Becky and gbp."

Matthais Winker, Head of Strategy, BOB ICS

The Power of Partnership

We work in partnership with NHS and public sector organisations to unlock complex estate challenges, planning, developing, and maintaining the highest quality, sustainable health and public buildings that serve the needs of communities, now and in the future.
